Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 6356878.

The prior art teaches a method and system for selling marketable assets comprising storing a listing of re-sellable assets owned by a third-party asset owner on a secure computer; sending a subset of the listing to a client computer based on a search inquiry; and receiving a buy request for at least one of the assets from the client computer. See figure 2 and the text describing this figure. With respect to claim 3,5,6,7 and 11,13,15-18, the former fail to further patentably limit the method of claim 1, while the latter fail to further limit the system of claim 9. With respect to the kiosk, the examiner is interpreting this to be any stand alone end user computer.
